RONDA® 300 with drainage hose 82.06.0033

A small and handy vacuum cleaner for vacuuming both wet and dry without a change of filter. Ideal machine for people, who often need to vacuum both dry and wet dust, or in situations with many people sharing the same machine.

RONDA® 300 is equipped with a dust/liquid bag, a strong syntetic bag, which – unlike a traditional paper bag – can stand up to moisture. Therefore it is possible to vacuum wet material and small quantities of liquid without spoiling the bag. The robust design, with container and motor top in polypropylene, prevents denting and makes the machine very environmentally friendly.

A 1200-watt motor ensures powerful suction. A flow valve stops the air flow when the machine is full of liquid. As an additional filter, the machine is supplied with a Mix-filter, made of polypropylene, which is easy to rinse in clean water.

RONDA® 300 with drainage hose (82.06.0033)

In this version the collection bag stands on a grate, through which the liquid flows. The solid particles are trapped in the collection bag while the liquid is sucked through to the container, where it can be drained off through the drainage hose.

TECHNICAL DATA

By pass motor	1200	W
Voltage	230	V
Power outlet, max.		W
Data of the installed motor motor:		
- Vacuum, max. (per motor)	2450	mmWC
	24	kPa
- Air flow, max. (per motor)	58	l/sec.
	209	m ³ /h
Noise level (ISO 11201)	<70	dB(A)
* Suction power, max. ((P2) based on IEC 60312)	285	W
Collection capacity (bag/container)	25/50	l
Pre-filter	0.4	m ²
HEPA-filter	-	m ²
Height	815	mm
Width	440	mm
Length/depth	425	mm
Weight without accessories	12	kg
Container coupling	ø 50	mm
Length of supply cable	8	m
Collection capacity, liquid	30	l
Lifting height, pump	-	m
Amount of water, pump	-	l/min
Discharge pipe stub	-	inch

* Data of the vacuum cleaner with 4 m ø 38 mm hose

- Vacuums wet and dry without a change of filter
- Synthetic collection bag
- Vacuums fine dust, liquids and sludge
- Separates particles/liquid
- Large filter area
- Washable Mix-filter
- Dust-free emptying
- Robust design
- Light and handy

Model 300

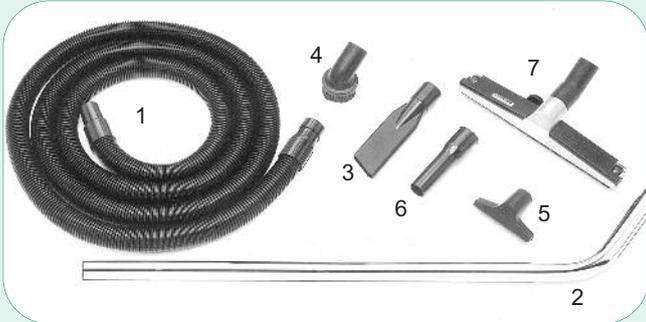

STANDARD ACCESSORIES:

40 mm professional's set 80.33.4016

- 1 Plastic hose, ø 38 mm, 4 m 84.54.3809
- 2 Complete tube with bend 80.52.2160
- 3 Crevice nozzle 80.34.4000
- 4 Dusting brush 80.34.4001
- 5 Upholstery nozzle 80.34.3604
- 6 Plastic adapter 80.34.4002
- 7 All-purpose floor nozzle V-370 84.38.3621

STANDARD FILTERS:

- 1 Synthetic bag NW-W/D 82.64.0057
- 2 Mix-filter 84.67.6003

OPTIONAL EXTRAS:

- 1 Drainage hose in base, mounted 80.30.0021
- 2 Grate base D 352 81.89.5002
- Separate air outlet with ø 50 mm coupling 84.31.0011
- Static electricity dissipation 84.31.0501
